

The unprecedented use of the public airwaves for blatantly political purposes by Sinclair Broadcasting must be stopped. It is absolute proof that this public trust is becoming nothing more than a propaganda machine. This is due to the consolidation of the broadcasting industry into fewer and fewer hands.

Under federal law the airwaves are owned by the public. The prostitution of this trust by Sinclair Broadcasting is an obvious attempt to curry favor with the current political power structure by airing what amounts to a free and in kind political commercial must be stopped. And further prostitution of the public trust must be prevented by the FCC strictly enforcing it's own rules against political campaigning by the owners of TV and radio stations.
